## EDUCATION

**Thakur College of Engineering and Technology, University Of Mumbai**

Mumbai, India

*Bachelor of Engineering, Computer Engineering CGPA: 9.58 / 10.00*

*Aug 2020 - June 2024*

## EXPERIENCE

### SDE Intern

Oct 2022 – Nov 2022

*Rudraksha Welfare Foundation*

- Full Stack Developer specializing in PHP, JavaScript, HTML, Bootstrap, and CSS Technologies. Contributing to prestigious website projects for prime clients including Akshay Jewellers, Bloom with us, and Occult Science Foundation.
- Successfully created Appointment, Courses Enquire, and Internship forms, capturing crucial client information and generating comprehensive reports. Collaborating with team members on GitHub, developing SQL tables and queries for data retrieval and client tracking.

## TECHNICAL SKILLS

**Programming:** C++, C, SQL, OOPS, Database Management System, Data Structures & Algorithm

**Development:** HTML, CSS, JavaScript, ReactJs NodeJS, ExpressJS, MongoDB, MySQL, Git, Github, Postman

## PROJECTS

NewsGenix | *ReactJs, Node.Js, Express.Js, Postman, RapidAPI*

Aug 2022 – Sept 2022

- Developed a full-stack web-based application that aims to facilitate news resource sharing amongst fields.
- Features Include: Extracting relevant news information from newsAPI. All categories display information from News API and include Loading Bar functionality. This web application can update automatically all the news Information according to their field.

Student Result Management System | *ReactJS, NodeJS, ExpressJS, MongoDB Compass* Feb 2023 – Mar 2023

- Intuitive web application integrating Admin, Faculty, and Student modules with advanced CRUD operations, search functionality, and user advantage assignments.
- Empowered Faculty and Students with streamlined access to student details, attendance marking, mark insertion, subject selection, result viewing, and PDF report printing.

MovieCafe Web Application | *ReactJS, NodeJS, ExpressJS, MongoDB Atlas, Postman.*

Sept 2021 – Nov 2021

- Developed a web application where movies are shown on the homepage based on categories like Bollywood and Hollywood along with their details.
- Implemented CRUD operations for admin to manage movie details, search functionality, and sorting based on categories. Movie details are stored in MongoDB Atlas.

## ACHIEVEMENTS

**GDSC TCET:** I secured 5th place in the Android Jam hackathon organised by GDSC TCET 2022

**CodeKaze:** Secured 2nd place in(My College) the prestigious CodeKaze contest organized by Coding Ninjas, outperforming 100+ college teams and showcasing exceptional coding skills and problem-solving abilities

**National Level Coding Contest:**Secured a rank of 705 out of 11000+ participants

**Postman API Fundamentals Student Expert:**Achieved the esteemed certification of a Postman API Fundamentals Student Expert!

**Hacktoberfest 2021-22:** Engage in a month-long commemoration of open source projects and actively contribute to their advancement. .

**LeetCode & GeeksForGeeks :** Solved 350+ DSA problems on leetcode and geeksforgeeks.

## CODING PROFILES

Leetcode: pjha2186 | Hackerrank: pjha2186 | GeeksForGeeks: pjha2186
